

# **BSE Informational Update for Livestock Producers**

**Thursday, March 11th , 7:00 - 9:00 PM**

**Lincoln High School Theatre, 790 J St., Lincoln, CA**

**Sponsored by: UC Cooperative Extension - Placer & Nevada Counties**

**To pre-register, contact Roger Ingram at 530-889-7385 or [rsingram@ucdavis.edu](mailto:rsingram@ucdavis.edu). The program is being offered free of charge.**

BSE was found in one dairy cow at a farm in Washington State on December 23, 2003. Many things have happened since then and their wealth of information can be overwhelming. This program will provide you with an update on BSE, its effects on markets, and information on changes that could be occurring with regards to animal identification. There will be time for all of your questions.

## **Program**

### **BSE - What is it, What's Happened Since December 23rd, What is the Current Status?**

Speaker: Dr. John Maas, UC Cooperative Extension Veterinarian

### **BSE - Impacts on the Market and Are There Future Indicators of What May Happen?**

Speaker: Roger Ingram, UC Cooperative Extension Farm Advisor

### **Animal Identification Information and Update**

Speaker: Dr Jim Oltjen, UC Cooperative Extension Specialist and Steve Batty, Allflex
